

Who is FlexShopper?

FlexShopper is an industry leader in lease-to-own payment solutions. We help customers short on cash and credit to get the products they need. Our payment solutions enable retailers to expand their reach to new customers without competing with their normal customer base, ultimately increasing and saving sales that would have previously been lost.

Why Partner with FlexShopper?

- Incremental revenue
- Reach new customers
- More approvals

1. An initial security deposit and/or payment may be required for a small percentage of customers/approved applicants.

2. Good credit is not necessary but not everyone with bad credit is approved. Our goal is to help consumers with bad credit get goods they want through a Lease.

3. You will own the item(s) and not have to pay any additional amount if you pay the full Cash Price (the Cash Price is the price we charge for a cash sale of the item (or \$50 more than the price the merchant you select charges) plus sales taxes and may be higher than the price you would pay if you were to purchase the item(s) directly; if you rent multiple items at the same time, we reduce the Cash Price (and increase the Cost of Rental) by \$50 for the second and each subsequent item you rent, which makes it less expensive to purchase the items before the end of the term of the Lease). After 90 days, you also have an Early Purchase Option that allows you to own your item(s) for less. Simply refer to the table in your Lease to look up the Early Purchase Option amount after each payment date.
